

## GOSTAR™ Portfolio

Discover better and faster with GOSTAR™ – World's largest SAR (Structure-Activity Relationship) database

GOSTAR is the most trusted data platform for drug discovery, offering **deep insights and a vast SAR database** to empower research and innovation.

## Why Choose GOSTAR?

Fully referenced for transparency, IP accuracy, and data integrity

Designed by medicinal chemists, for medicinal chemists

Power your AI-driven drug discovery models

Built for informatics and data science

Stay ahead with real-time updates and customization

With a **legacy of excellence** in small-molecule data, GOSTAR is now redefining protein degrader and large-molecule discovery with custom data curation services.

-  **Unparalleled Data Quality** – Manually curated, AI/ML-ready datasets
-  **Comprehensive Coverage** – Small molecules, TPDs, antibodies, and more
-  **Advanced Search & Integration** – Query with precision, integrate with ease
-  **Custom Curation** – Tailored data solutions for unique research needs

## Find Your Next Breakthrough with GOSTAR™

Get access to the right data for your research with GOSTAR™ – your key to novel designs, optimized SAR, and predictive insights.
